## DETAILED ACTION

The following action is in response to application 10/690,575 filed on October 23, 2003.

### *Allowable Subject Matter*

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the driving control apparatus/method of a vehicle as claimed, and particularly including sensing a condition of fuel cut and coasting downshift, and during said condition, sensing if the fuel cut has been canceled, and if so, reducing the amount of torque of the low speed frictional engagement device, and including the remaining controls of claims 1 and 12, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Nagaoka, Kato, Kyushima, Kobayashi, Hoshiya, and Ito have been cited to show similar transmission controls.
